IBM Pushes a Species of Lotus in the Cloud

Marvin Bayless wrote: This is an exciting time in the Lotus arena. LotusLive Engage will equalize the business playing field for small and medium business. Finally, we can use the tools that the "big boys" use. It may even globalize the small business market. If Quickr were also a part of this offering then the package would be perfect. I believe that a lot of small business owners will adopt the Lotus platform now and embrace it's technology. This needs to be exposed to the general public.

ARE YOU A PR MANAGER OR AN EXPERT AUTHOR?

"Ulitzer Will Change the Face of Online Media"

Ulitzer is simple, intuitive, and provides a powerful digital tool for creating, distributing, consuming, and aggregating content. Within minutes of registration, I had a personal author site connected to my external blog and I had launched a new e-zine (Cloudonomics Journal) with content contributed from twelve different authors. Combining simplicity with powerful functionality, Ulitzer will change the face of online media."

Julian's attorney, Robert Kelly, from the prestigious metropolitan Detroit law firm, Dickinson Wright PLLC, filed the application and received the patent for Julian's "Abracadabra" Stain Cover-Up. It can be used to cover clothing stains and touch up chipped paint on musical instruments and other items.

Bernadino Pavone, Julian's father, explained how his son came up with the ideas: "Julian accidentally made a mark on my T-shirt. He felt bad and wanted to 'fix it.' He used liquid paper to cover the mark and then waved his hand, saying 'Abracadabra.' Next, he designed the container to look like a bass drum and an applicator to look like a drumstick. Then he wanted to make different colors to fix everything."

Joe Davis, founder of Michigan-based Chelexa Design and Engineering LLC, is heading up the design and engineering of the invention. Julian is also working with the Sherwin-Williams company for guidance on color and technical issues in developing the system.

Julian is no stranger to the spotlight, having appeared on more than 100 television and news shows, including "The Oprah Winfrey Show", "Good Morning America", "Martha Stewart", "Inside Edition", "Good Company", "Japan TV", "The Maury Show", "FOX News Dayside", "MSNBC, WGN, and starred in a Korean Documentary. He plays a 22-piece custom drum set with 17 cymbals and has received worldwide media coverage with more than 7000 newspaper and magazine articles written about him.

He has also inspired a clothing line, a series of children's books, and the formation of Harmonie Network, a national entertainment company. He is currently working on his sophomore CD with four-time Grammy Award winning producer, Michael J. Powell and attends University Liggett School (Class of 2022).

Julian continues to be quite busy, recently participating in the first worldwide online talent contest for kids - The Golden Ribby Awards, created by WonderWorld Entertainment LLC, producer of the award-winning children's television series "Ribert & Robert's WonderWorld." The awards are a quarterly opportunity for talented kids across the country to showcase their gifts in music, comedy, dance, art, science, sports, and more.

Julian also finds time to give back to his community and was named Muscular Dystrophy Association's 2009 Michigan Honorary Goodwill Ambassador. He will perform at association events and will donate proceeds from his new fruit bar "Go Baby" to support this worthwhile cause.

While Julian's "Abracadabra" magically covers unwanted mistakes, he continues to make marks on this world that won't soon disappear.

What's Really Industry Changing About Cloud Computing?

By Bill McColl

This is an incredibly important time for the cloud computing area. What are some of the new directions in the massively parallel cloud computing space? I'll mention four that I'm particularly interested in, that are exciting and challenging, and that I think will have a huge ...

Making the Case for Desktop Virtualization

By Susan Wechtler

While server virtualization appears to have gone mainstream, the case for desktop virtualization is often less clear. However, the potential opportunity is significant with the number of client devices far exceeding the number of servers. Primary reasons why organizations will em...

Cloud Computing Casts Shadow on Walled Gardens

By Billy Marshall

As a technology provider that helps application companies embrace cloud computing by virtualizing the applications to run on any cloud, I was a bit disappointed with Google's AppEngine announcement. It appears that Google is embracing the 'walled garden' approach of Salesforce.co...
