ceremony held in New York last week, PC **World** was honored with 13 national awards from the American Society of Business Publication Editors (ASBPE) including Web Publication of the Year. For this top online honor, judges looked at areas such as writing and reporting, value and usefulness to readers, ease of navigation and quick access to information, site architecture, and overall design. This accolade is ASBPE's single highest online honor and comes on the heels of the site's 2007 Maggie Award win for Best Web Site. Presented annually, the ASBPE awards acknowledge editorial, online, and design excellence in print and online publishing. PC **World** was **also** one of ten finalists for Magazine of the Year.

Old world masterpieces may benefit from a nanotechnology cleaning

(Nanowerk Spotlight) In the art **world**, the topic of conservancy is a heated one. Some believe that the **world's** most precious works of art should be allowed to **age** and die gracefully, while others believe they should be protected and restored at all costs. Art conservation and restoration is not a modern phenomenon. Within 20 years of its 1497 completion, one of the **world's** most well-known and admired works of art, The Last Supper, was already beginning to show signs of wear and exposure. In 1726, the first of many restorations (or attempted restorations) occurred, followed by additional restorations in 1901, 1908, 1924, and 1951. The deterioration proved unstoppable, while the effects of pollution added to the masterpiece's worsening condition.

Another Playstation 3 Price Reduction

There has been speculation that the Sony PlayStation 3 will be receiving another price reduction. Sources close to Sony are saying that a \$ 100 price decrease might transpire. This would make the Sony PlayStation 3 \$ 400. After dropping the price of the PlayStation 3 by \$ 100 earlier this year, PS 3 sales increased by 125 %. Could a second price reduction put Sony over the top? Only time will tell, but skies the limit for Sony. The \$ 400 PlayStation 3 will be a 40 GB and is expected be available during the holidays. This will give players options to purchase the 80 GB PlayStation 3 or 40 GB PlayStation 3. With exclusives like Killzone 2 and Metal Gear Solid 4, Sony looks to be in great position to steal the spotlight away from Microsoft and Nintendo.
